CANADAMANHOLE

ABOUT US

At Canada Manhole Ltd., we specialize in storm and sanitary manhole repairs, frame and lid replacements, and custom infrastructure solutions for cities, paving contractors, developers, and strata properties across British Columbia.

Our mission is simple: provide a consistent, engineered process that eliminates failures and holds up for decades. Whether we're replacing 100 manholes before a paving job or fixing a single drain in a parking lot, our team is known for delivering durable results and responsive service.

CURT BROWN, ASCT

OWNER & GENERAL MANAGER

The logo for Canada Manhole (cmh) is displayed in white text on a red square background. The letters 'cmh' are in a bold, sans-serif font, with 'CANADA MANHOLE' in a smaller font below them.

Curt founded Canada Manhole after a career as a municipal Engineering Inspector. He saw the same issues happening year after year, manholes failing shortly after installation or adjustment, and decided there had to be a better way.

With an emphasis on quality, communication, and systems, Curt leads quoting, scheduling, and oversight on every project.

Outside of work, he's a dad, a hockey guy, and a big believer in process and long-term thinking.

MIKE KOSTRITSYN, ASCT OPERATIONS MANAGER

The logo for Canada Manhole (cmh) is located in the top right corner. It consists of the lowercase letters "cmh" in a white, bold, sans-serif font, with the words "CANADA MANHOLE" in a smaller, all-caps, sans-serif font directly beneath them. The entire logo is set against a solid red square background.

Mike brings over a decade of experience in civil construction and infrastructure work. A graduate of the BCIT Civil Engineering program, he spent the early part of his career at an engineering firm before transitioning into field operations. For the past five years, he's been a cornerstone of the Canada Manhole team.

As Operations Manager, Mike oversees on-site execution, coordinates with clients, and ensures our work meets the high standards we're known for. From municipal roads to private parking lots, he's the guy making sure every job runs smoothly and gets done right.

Clients love Mike's calm, easygoing personality and his ability to communicate clearly and keep projects moving. He's a hard worker, a stickler for quality, and the kind of guy who always goes the extra mile to make sure everyone's happy.

FASTER. SMARTER. STRONGER.

The Time-Tested Engineered Solution to
Remove, Repair and Replace Manholes.

What We Do

**FAST, EFFICIENT BUILDERS-
WITH EXPERIENCE**

THE VISION

Provide Convenient, Cost effective,
Bombproof utility cover repairs

THE MISSION

Provide a Robust, Engineered approach
of repairing and replacing utility covers
for Local Government and Road building
Contractors

OUR APPROACH

cmh
CANADIAN MANHOLE

A Repeatable, Engineered Solution that is Cost Effective with Guaranteed Results

ASSESS

Problems usually stem from the use of traditional materials such as Concrete Rings, Grout and Shims

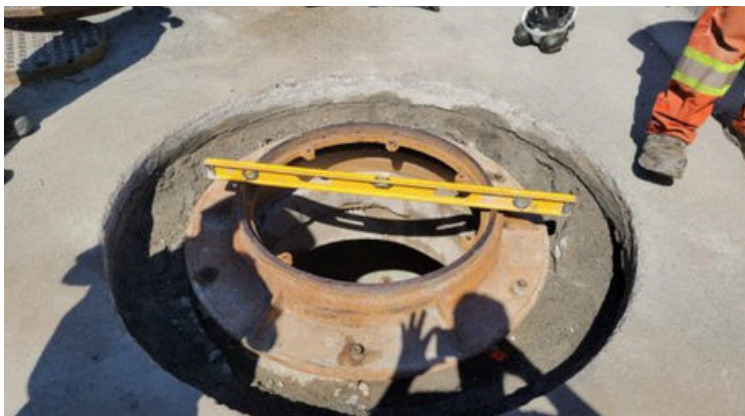

EXTRACT FRAME

A common issue for a failed manhole frame is the deterioration of the concrete riser rings

REMOVE CHIMNEY

The concrete rings are removed and we excavate to expose the top section of the MH

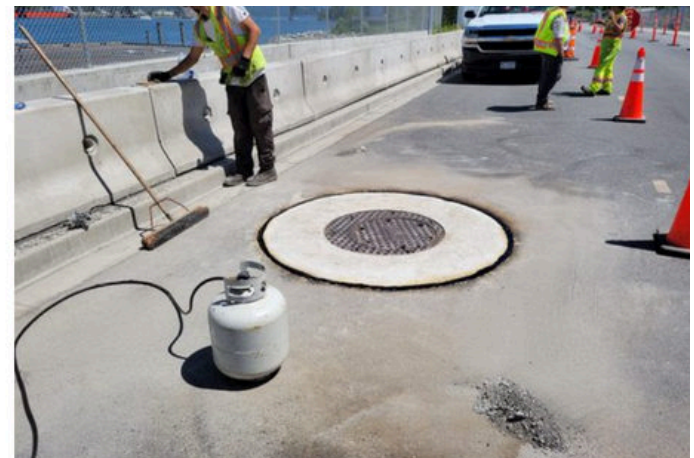

REPLACE AND LEVEL

The manhole frame is set dead level to the existing grade

BACKFILL WITH CONCRETE

Finish the process with Reinforced High Early Strength Concrete (40 MPa minimum at 28 days)

OUR WORK

cmh
CANADA MANHOLE

A Repeatable, Engineered Solution that is Cost Effective with Guaranteed Results

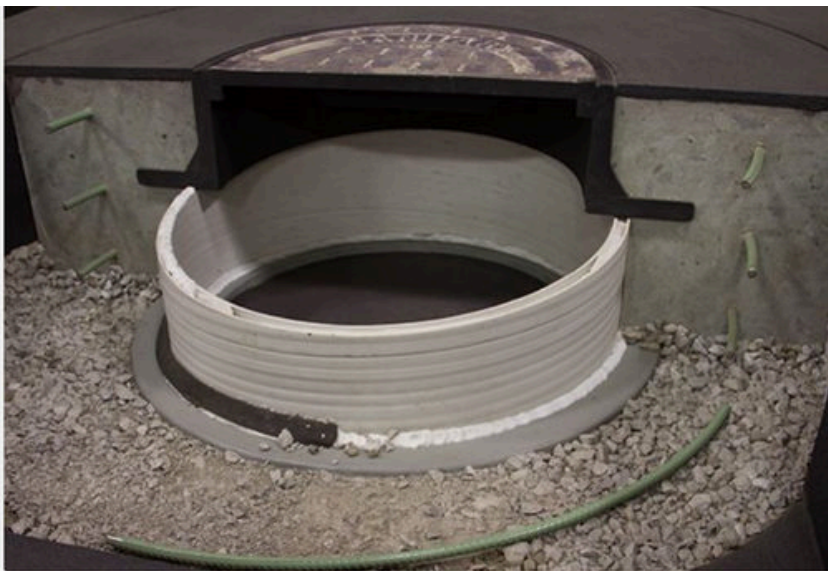

ENGINEERED SOLUTION- REPEATABLE RESULTS

TIME TESTED MATERIALS

No more cumbersome Concrete Riser Rings, Shims, Back injuries and over complicated frames. Canada Manhole uses time tested materials to provide a durable Engineered solution.

STANDARDIZED PROCEDURE

A Standardized procedure ensures a long lasting, inexpensive solution for a major problem in Civil Road Construction and Wastewater Management. Manholes that are Level and Watertight, every time.

OUR BOMBPROOF SOLUTION

- Robust, Engineered Solution
- Repeatable Process
- Faster
- Cost Effective
- Lasts decades
- Water tight to eliminate I&I
- Perfectly Level
